

# HOME SAFETY INSPECTION

*Help keep your family and your home safe from fire!*

## FIRE PROTECTION

YES NO

1. We have smoke alarms next to all sleeping areas in our house
2. We test our smoke alarms each month & replace battery annually
3. We, as a family, practice our home fire escape plan
4. Everyone in my family knows to smother fire with "Stop, Drop & Roll"
5. We know to treat burns with cool water
6. We know how to call 9-1-1 for emergency help

## HEATING EQUIPMENT

1. We keep combustible items at least 12" away from portable heaters
2. Our chimney gets inspected, cleaned and is protected with a screen
3. We keep storage at least 36" away from our furnace
4. Our heating equipment is kept in good working order

## WIRING/ELECTRICITY

1. Electric cords are not frayed, hidden under carpet or stapled to walls
2. Refrigerator, dryer/electrical motors are kept clean of dust and lint
3. When appliances don't work properly, they are fixed before using again
4. Extension cords are used for temporary use only, not permanent

## SMOKING, MATCHES AND LIGHTERS

YES NO

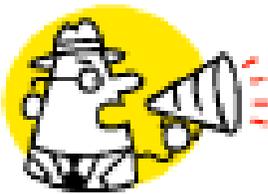

1. Matches and lighters are kept away from small children
2. Ashtrays are provided throughout the house for smokers
3. Smokers do not smoke in bed or on couches or chairs when sleepy
4. Smoking materials and fireplace ashes are disposed of safely

## COOKING

1. We keep pan handles turned in and cords from dangling when cooking
2. When cooking with grease, we have a lid for the pan near by
3. We wear snug-fitting clothes when we cook and stay near the stove

## HOUSEKEEPING

1. We keep our closets, garage, attic and yard clear from combustibles
2. We store gasoline and other flammables away from heat or sparks
3. We keep gasoline, flammables and poisons away from small children
4. We do not use gasoline to start fires or for cleaning purposes
