

Honorable Mayor and City Council
City of Medford

I am writing to encourage you to keep the Mahar properties in MD5 in your 20 year urban growth boundary expansion plans. This inclusion is vital to the ability to connect the Bear Creek Greenway to the Larson Creek Trail to the SE Plan Village Center to Chrissy Park and eventually to Prescott Park.

My family is completing a new home in Summerfield Subdivision and will be moving very soon. Part of our reason for moving into the neighborhood is knowing that walking and biking trails will be nearby and very accessible to parks, school, and other points of interest through a well thought out Leisure Service Plan by the Medford Parks Department. We would love to see this come to fruition while we still have children at home to enjoy this part of life with us.

Thank you,

Dyan and Donald Lane
