Re: Proposed Urban Growth Boundary amendment

Dear Sir:

I am writing to express my support for the properties identified as MD-9 to be included in the Urban Growth Boundary. The parcels included in MD-9 would be ideal for the development of affordable housing which is sorely needed in the City of Medford. The area already possesses much of the infrastructure (water, sewer, etc.) that would enable developers to develop subdivisions at a reasonable cost as compared to other to other areas in Medford. The area is well served by public transportation and is close to existing schools, shopping and other amenities. MD-9 is surrounded by other developments and it is logical that it should be included in the amended plan.

Your consideration and hard work is sincerely appreciated.

Very Truly Yours,

John W. Hamlin
