Re: UGB Inclusion

Dear Mayor Wheeler, Council Members, & Planning Department:

I write this letter today as a direct appeal to have my property included in Medford's UGB. Twice in the last 15 years it has been approved for inclusion and then subsequently removed. Both times this happened without any explanation or clarification as to why the decision was changed.

Inclusion of my property would "square off" that portion of MD5 and permit future appropriate development on the south side of Coal Mine Road. Adjacent property is already slated for residential development, as would be mine, if you were to support my request.

It was my late husband's desire to see our farm one day be home to many Medford families. My children and I wish to preserve this legacy.

Thank you for your considerations.

Very truly yours,

Janet C Stringer
