PUBLIC STREET RE-NAMING APPLICATION

PROCEDURE

Section 10.458 Street Renaming, Public and Private.

This section applies to the change of name of an existing street or alley, or to the naming of an already existing but unnamed street or alley. The purpose of the street renaming procedures is to ensure use of clear and unique street names so that emergency personnel may find the streets without being hindered by similar or confusing names. Approval of street names is not a land use decision.

A. Procedures, Street Renaming, Public and Private.

- (1) Public Streets. A public street renaming application shall be processed using Class B procedures with the City Council being the approving authority. The decision of the City Council is final. A certified copy of the approving ordinance and exhibits shall be filed with the County Recorder, Assessor, and Surveyor for the name change to become effective.

APPROVAL CRITERIA, SECTION 10.458(B)

The approving authority shall not approve any street name unless it finds that the proposed name is consistent with the following criteria:

- (4) The proposed street name shall not contain Cardinal directions (north, south, east, west);
- (5) The proposed street name shall not contain offensive or derogatory terms;
- (6) The proposed street name shall not contain punctuation or special characters;
- (7) When a street makes a directional change of approximately 90 degrees or more, the street name shall change;
- (8) Street names shall continue across intersections and roundabouts;
- (9) A street may not loop around in such a way that it creates two intersections with one other street, unless the street name at one intersection is different; and
