

Selected Street Tree List- City of Medford

Revised October 2013

<div style="border: 1px solid black; padding: 5px;"> Small Trees Narrow planting strips Less than 30' at maturity Powerline compatible Spatially confined growing space </div>																
Latin Name	Common Name	Cultivar	Cut-Out and Parking Strip Min. Width	Powerline Compatible	Mature Height (ft)	Mature Spread (ft)	Poor Drainage	Drought Tolerant	PNW Native	Maintenance Needs/Disease Problems	Problem Litter/Fruit?	Conspicuous Flowers	Conspicuous Fall Color	Needs trunk protection to establish	Comments	
<i>Amelanchier x grandiflora</i>	Hybrid serviceberry	Autumn brilliance, Robin Hill, Spring Flurry, Snowcloud	3	Y	25	25	V	N	M	N	M	N	Y	Y	Y	Needs good drainage, susceptible to rust and fireblight, prune basal suckers, select single trunk form
<i>Acer grandidentatum</i>	Bigtooth maple	Rocky Mtn. Glow, Schmidt	4	Y	25	25	R	N	Y	N	L	N	N	Y	Y	Slow to moderate growth, good arching branch structure, needs good drainage and trunk protection when young. Occasional leaf spot. Orange-red fall color
<i>Acer griseum</i>	Paperbark maple		4	M	30	15	O	Y	M	N	L	N	N	Y	N	Lovely, peeling, cinnamon colored bark; slow growing; scarlet fall color; tolerates some shade and a variety of soils, requires summer irrigation and pruning to establish central leader
<i>Cercis canadensis</i>	Eastern redbud		4	M	30	35	R	Y	Y	N	L	N	Y	N	Y	Magenta flowers in April before leaves; palm-sized heart shaped leaves; CAUTION: Susceptible to <i>Verticillium</i> . Cultivar 'Forest Pansy' for shade situations. Select single stemmed trees and train for upright growth.
<i>Chionanthus virginicus</i>	Fringetree		4	Y	18	20	O	Y	Y	N	M	M	Y	N	Y	Transplant carefully. Urban tolerant. Fragrant clusters of flowers. 0.5" showy blue fruit that is rarely a problem.
<i>Cornus kousa</i>	Korean dogwood		4	Y	30	30	R	N	N	N	M	N	Y	Y	Y	AKA Chinese Dogwood. Must have ample water in hot climates; resists anthracnose; long lasting flowers. Prune for upright street tree form.
<i>Lagerstroemia indica</i>	Crapemyrtle	Tuscarora, Natchez	4	Y	20	12	V	Y	Y	N	M	M	Y	Y	Y	Good tree for dry areas. Very showy flowers; many different cultivars. Choose cvs. That are mildew and aphid resistant; the hybrid crosses btw. L. indica and L. fauriei have best mildew resistance. 'Tuscarora' bright coral pink blooms; 'Natchez' has pure white blooms. Many more cultivars.
<i>Maackia amurensis</i>	Amur maackia		4	Y	30	20	R	N	Y	N	L	N	Y	N	Y	Legume; especially nice bark and late summer flowers; works on sites with low fertility. Erect yellow flower pannicles. Inedible seeds.
<i>Malus spp.</i>	Flowering crabapple		4	Y	20	20	R	N	Y	N	M	Y	Y	N	Y	Red buds, single white flowers in Apr/May; long bloom; small orange-red fruit; good disease resistance. Select varieties to be upright street trees suitable under power lines. Dolgo a larger variety requiring more space.
<i>Parrotia persica</i>	Persian ironwood/ parrotia		4	N	30	20	O	N	Y	N	N	N	N	Y	N	Upright tree, can be multistemmed. Early bolloming small flowers with showy stamens. Excellent fall color. Beautiful exfoliating bark. Hardy and pest resistant, but needs sufficient drainage.
<i>Prunus sargentii</i>	Sargent cherry	Sargent, Columnaris, Accolade	4	M	30	25	R	N	N	N	M	N	Y	Y	Y	Midseason single pink flowers in small clusters. No fruit. Good orange-red fall color. Needs consistent water and good drainage. Select for insect and disease resistance. Must have trunk protection or afternoon shade; otherwise will scorch in southern OR.
<i>Prunus serrula</i>	Red bark cherry		4	M	30	25	O	N	N	N	L	N	N	N	Y	Glossy, red-brown bark is primary attribute. Thin, willow-like leaves that tend to hide mid-season single white flowers. Needs good drainage, consistent water.
<i>Styrax japonicus</i>	Japanese snowbell		4	Y	25	20	R	Y	N	N	L	N	Y	M	Y	Bell-shaped white flowers in May; delicate appearance. Must have ample and consistent water. Trunk protection especially important. Fruit can be messy. Needs pruning to maintain ROW clearance.
<i>Syringa reticulata</i>	Japanese tree lilac	Ivory Silk, Summer Snow	4	M	30	25	R	N	Y	N	L	N	Y	N	Y	Fragrant blooms on new growth later spring. Needs pruning to attain street tree shape. Attractive glossy, peeling, red-brown bark.

Selected Street Tree List- City of Medford

Revised October 2013

<i>Acer tartaricum ssp. ginnala</i>	Amur maple	Pattern Perfect, Flame, Red Wing	5	Y	20	15	O	Y	Y	N	L	N	Y	Y	Y	Often multi-stemmed; requires training into street tree form. Red-stemmed new growth in spring, fragrant flowers, showy fruit (red samaras), and brilliant fall color. Consider cvs: 'Flame' and 'Red Wing' for best fall color. Plant in full sun, provide consistent water to establish.
<i>Chionanthus retusus</i>	Chinese Fringe Tree		5	Y	18	20	O	Y	Y	N	M	M	Y	N	Y	Urban tolerant. Fragrant clusters of flowers. Select and train for higher branching structure.
<i>Koelreuteria paniculata</i>	Golden raintree		5	Y	35	35	R	Y	Y	N	M	N	Y	Y	N	Yellow flowers in summer followed by interesting brown, papery fruits. Tolerant of urban conditions, susceptible to <i>Verticillium</i> .
<i>Magnolia spp.</i>	Flowering magnolia	Stellata, Merrill, Galaxy, Royal Star, Saucer, Yulan, Kobus, Alexandriana, Rustica Rubra	5	Y	30	20	R	N	M	N	N	M	Y	N	N	Prune for development of upright street tree form. Beautiful, large flowers. Tolerant of a variety of soils.
<i>Ostrya virginiana</i>	American hophornbeam		5	N	40	25	O	N	Y	N	N	N	N	Y	N	Handsome tree with zig-zag twigs. Pest resistant, and urban hardy. Strong wood and structure. Interesting hop-like seeds in the late summer.
<i>Pistacia chinensis</i>	Chinese pistache		5	M	45	35	R	Y	Y	N	M	M	Y	Y	N	Showy red flowers in spring; blue small fruit. Susceptible to <i>Verticillium</i> ; resists <i>Armillaria</i> . 'Keith Davey' attractive cv.
<i>Pyrus calleryana</i>	Callery pear	Redspire, Aristocrat, Chanticleer, Cleveland Select, Fauriei	5	N	40	30	O	Y	Y	N	M	N	Y	Y	N	Do well in Rogue Valley. Species tree is taller than most cultivars. Select for shape, disease resistance, and flowers. Early, single white flowers with glossy green leaves. Purple red fall color. Avoid Autumn Blaze and Bradford cvs.

Not Approved as Street Trees:

Acer macrophyllum- Bigleaf maple
Acer negundo- Box elder
Aesculus spp.- Horsechestnut
Ailanthus altissima- Tree of Heaven
Alnus spp.- Alder
Catalpa speciosa- Catalpa
Cornus mas- Cornelian dogwood
Crataegus spp.- Hawthorne

Laburnum x watereri- Goldenchain tree
Morus spp.- Mulberry
Juglans spp.- Walnut
Maclura pomifera- Osage orange
Populus spp.- Poplar, Aspen, Cottonwood
Salix spp.- Willows
Ulmus pumila- Siberian elm
Conifers
Fruiting trees (Plum, pear, mulberry)

Revised October 2013

<div style="border: 1px solid black; padding: 5px; width: fit-content;"> Medium-sized Trees 6' to 7' wide planting strips 25' to 60' tall at maturity </div>																Comments	
			Latin Name	Common Name	Cultivar	Cut-Out and Parking Strip	Min. Width	Powerline Compatible	Mature Height (ft)	Mature Spread (ft)	Mature Shape	Poor Drainage Tolerant	Drought Tolerant	PNW Native	Maintenance		Problem Litter/Fruit?
<i>Acer truncatum</i>	Shantung maple	Norwegian Sunset	6	Y	25	25	R	Y	Y	Y	N	L	N	N	Y	Y	aka. "painted maple"; glossy star-shaped foliage that holds up in heat. Dense canopy. Needs good drainage.
<i>Betula utilis jaquemontii</i>	Jacquemontii/ Himalayan whitebarked birch	Jacquemontii, White Satin	6	N	40	30	O	Y	Y	N	M	N	N	N	N	N	Lovely white bark when young that seems to reflect strong sun. CAUTION: birches tend to get aphids and are brittle, so are not recommended as street trees. Bronze birch borers may also become a problem. Do not plant in close clusters of 3-4 stems. Gentle branch thinning can reduce aphid problem.
<i>Betula nigra</i>	River birch	Dura-Heat, Heritage	6	N	50	35	O	Y	Y	N	H	Y	N	N	N	N	Red birch; exceptional white bark; can be surface rooting. Drought tolerant.
<i>Carpinus betulus</i>	European hornbeam	Fastigiata, Franz Fontaine	6	N	50	35	O	Y	Y	N	L	N	N	N	N	N	Hardy tear-shaped tree. Fastigiata is tight upright form. Needs consistent water and some bark protection for establishment.
<i>Carpinus caroliniana</i>	American hornbeam		6	M	35	25	O	Y	N	N	L	N	N	N	Y	N	Tough, "well-behaved" tree, but does not have spectacular flowers. Yellow fall color. Much slower growth. Does not do well in "desert parking lots"; needs consistent water for establishment.
<i>Carpinus japonica</i>	Japanese hornbeam		6	Y	20	25	R	Y	N	N	L	N	N	N	N	N	Small hardy tree, well suited for urban conditions and under power lines. Easy to transplant. Select trees with higher branching (5-6').
<i>Celtis laevigata</i>	Sugar hackberry		6	N	50	40	V	Y	Y	N	L	N	N	N	N	N	Exceptionally tough; easy on infrastructure; late to leaf-out. Resists <i>Verticillium</i> and <i>Armillaria</i> . Tough, interesting, corky bark.
<i>Celtis occidentalis</i>	Hackberry	All Seasons, Magnifica, Prairie Pride	6	N	60	60	R	Y	Y	N	L	N	N	N	N	N	Exceptionally tough; easy on infrastructure; late to leaf-out. Resist <i>Armillaria</i> .
<i>Cercidiphyllum japonicum</i>	Katsura		6	N	50	30	O	Y	N	N	L	N	N	Y	Y	Y	Needs irrigation and trunk protection from sun. Select single stemmed trees. Beautiful delicate structure. Red Fox for a smaller variety.
<i>Cladrastis lutea</i>	Yellowwood		6	N	40	45	R	N	Y	N	M	M	Y	Y	Y	Y	Pinnately compound leaves, especially nice bark and white, wisteria-like flower panicles in spring. Legume, adapted to poor soil. Protect trunk until well-established. Prune for street and sidewalk clearance.
<i>Fraxinus pennsylvanica</i>	Urbanite/Green ash	Marshall Seedless, Patmore, Summit, Urbanite	6	N	50	40	R	Y	Y	N	M	N	N	N	Y	Y	Fast growing; easy to transplant; tolerant of urban stress; Needs pruning to reduce poor branching habits. Summit and Patmore have improved structure. Symmetrical form.
<i>Fraxinus quadrangulata</i>	Blue ash		6	M	40	40	O	Y	M	N	M	M	N	N	N	N	Purple fall foliage; square stems; semi drought tolerant.
<i>Halesia monticola</i>	Mountain silverbell		6	N	35	25	O	M	N	N	L	N	Y	Y	Y	Y	White pendulous flower panicles, oval tapered leaves. Contrasting colored twigs.
<i>Nyssa sylvatica</i>	Tupelo		6	N	45	30	P	Y	Y	N	L	M	N	Y	Y	Y	aka. Blackgum, sourgum, Pepperidge tree. 'Red Rage' has brilliant yellow-scarlet fall color, resists leaf spot and has showy corky bark. Adaptable in urban conditions and poor soils.
<i>Prunus serrulata 'var.'</i>	Flowering cherry	Mt Fuji, Kwanzan, Ichiyo, Chirifugan	6	N	35	20	R	N	Y	N	M	N	Y	Y	Y	Y	aka Japanese cherry. Needs well drained soil or can be hard on infrastructure. Select trees for desired shape and flowers, as well as disease and insect resistance. Avoid pruning except when necessary to remove water sprouts or basal suckers.

Revised October 2013

<i>Prunus x yedoensis</i>	Hybrid flowering cherry	Yoshino, Akebono	6	N	40	30	R	N	Y	N	M	N	Y	N	Y	Horizontal open branches; early single light pink to nearly white. This kind is planted in Washington D.C. tidal basin. Most disease free cherry in Pacific Northwest. Needs good drainage, consistent water.
<i>Sophora japonica</i> 'var.'	Scholartree	Princeton Upright, Regent,	6	N	50	35	O	N	Y	N	M	N	Y	N	Y	Select cultivars for shape and disease resistance. Legume. Beautiful branch structure and flowers on drooping pannicles. Showy orange fruit in mid-summer. Attracts wildlife. Needs trunk protection from sun.
<i>Sorbus aucuparia</i>	European mountain ash		6	N	35	25	O	N	M	N	L	Y	Y	Y	Y	Fruit may be messy and persist through the winter. Late summer clusters of flowers. Tolerant of wind and heat, but requires trunk protection from the sun.
<i>Tilia americana</i>	American linden		6	N	45	30	O	N	M	N	L	N	Y	Y	N	Choose variety for shape and size. Hybrids also available. Yellow fall color. Good substitute for ash.
<i>Tilia cordata</i>	Littleleaf linden	DeGroot, Glenleven	6	N	55	40	O	N	M	N	L	N	Y	Y	N	Fragrant yellow flowers in June, tolerant of urban conditions. Prune to establish strong central leader and remove basal suckers. May be susceptible to aphids.
<i>Umbellularia californica</i>	Oregon myrtle		7	N	60	45	R	N	Y	Y	L	N	N	N	N	Evergreen leaves with spicy fragrance, tolerant of urban conditions and seasonal flooding. Spreading canopy and good resistance to pests and disease. Requires water to establish.

Trees for Beneath Power Lines

<div style="border: 1px solid black; padding: 5px; width: fit-content;"> Large Trees Minimum 8' wide planting strips 50' to 80' tall at maturity Not suitable for limited growing space </div>			Cut-Out and Parking Strip Min. Width		Powerline Compatible	Mature Height (ft)	Mature Spread (ft)	Mature Shape	Poor Drainage	Drought Tolerant	PNW Native	Maintenance	Problem Litter/Fruit?	Conspicuous Needs/Disease Problems	Conspicuous Flowers	Needs trunk protection to establish	Comments
Latin Name	Common Name	Cultivar															
<i>Corylus colurna</i>	Turkish filbert		8	N	50	30	P	Y	Y	N	N	N	Y	N		Handsome tree with dark green foliage. Adaptable to variety of soils and pH.	
<i>Davidia involucrata</i>	Dove tree		8	N	50	40	R	N	N	N	N	Y	Y	N		Exceptionally showy and unusual flower display. Needs summer irrigation.	
<i>Eucommia ulmoides</i>	Hardy rubber tree		8	N	50	45	R	Y	Y	N	N	N	N	N		Glossy, dark green leaves. Hardy, adaptable to urban conditions. Disease free.	
<i>Fagus sylvatica</i>	European Beech	Tricolor, Fernleaf, Green, Fastigate, Lacinata, Dawyck Purple, Rivers Purple, Purple Fountain	8	N	50	40	O	N	M	N	N	N	Y	N		Stately trees with interesting foliage and fall color. Purple varieties for contrasting color in growing season. Fastigate forms for narrow spots and along buildings. Ensure Beech Bark Disease resistance.	
<i>Fagus grandifolia</i>	American beech		8	N	50	40	O	N	M	N	N	N	Y	N		Stately tree with good branch structure and silver-grey bark. Glossy green foliage and bronze fall color. Ensure Beech Bark Disease resistance.	
<i>Ginkgo biloba</i>	Ginkgo	Ginkgo, Autumn Gold, Princeton Sentry, Magyar, Fairmount	8	N	60	50	R	Y	M	N	L	N	Y	N		aka. Maidenhair tree; MALE CLONES ONLY. Slow growing, brilliant yellow fall color, fan shaped leaves; very urban tolerant. Female trees have foul smelling fruit.	
<i>Gymnocladus dioica</i> 'var.'	Kentucky coffeetree	Kentucky, Espresso	8	N	50	35	O	N	N	N	M	N	N	Y		Male: suckers easily; seedless, legume, pinnate compound leaves, white midseason flowers. Lovely bark in winter.	
<i>Magnolia grandiflora</i>	Southern magnolia	Edith Bogue, Victoria, Magestic Beauty, Samuel Sommer	8	N	80	50	P	Y	N	N	M	N	Y	N		Underused in southern OR. Broadleaf evergreen with large white flowers in spring. Can be surface rooting. Victoria is a small tree to 20'. Prune for single central leader.	
<i>Oxydendron arboreum</i>	Sorrel tree/sourwood		8	Y	25	15	O	N	N	N	N	N	Y	Y	N	Narrow, graceful tree with pendulous lily-of-the-valley like flowers in mid-summer. Can be shallow rooted. Brilliant red fall color. Needs summer irrigation. Powerline compatible.	
<i>Phellodendron amurense</i>	Amur corktree	His Majesty	8	N	45	45	R	Y	Y	N	M	N	N	N		Fast growing, upright, spreading. Hardy, seedless tree with good branching habit and pest resistance.	
<i>Quercus acutissima</i>	Sawtooth oak		8	N	50	45	O	M	Y	N	L	N	N	N		Rounded, broad, pyramidal shape. Trunk flares out at the base lifting sidewalks and curbing if planted in tree lawns less than 8' wide or too close to walks. Needs good drainage. 1" acorns, attractive to squirrels. Smaller oak, skinny, chestnut like leaves, very urban tolerant.	
<i>Tilia tomentosa</i>	Silver linden		8	N	60	40	O	Y	Y	N	L	N	Y	Y	N	Resists drought and heat better than other lindens. Leaves are gleaming dark on upper surface and white beneath giving spectacular effect in the breeze.

Selected Street Tree List- City of Medford

Revised October 2013

<i>Ulmus americana</i>	American/ Hybrid elm	Princeton, Triumph, Pioneer, Accolade, Valley Forge	8	N	60	50	V	Y	Y	N	L	N	N	Y	N	Choose varieties resistant to Dutch Elm Disease and Phloem Necrosis. Classic street tree with spreading vase shape at maturity. Many varieties available for different size spaces. Yellow fall color.
<i>Ulmus parvifolia</i>	Chinese elm		8	N	60	55	O	Y	Y	N	L	N	N	Y	Y	aka Lacebark elm; confused with <i>U. pumila</i> , but a much better tree. Resists Dutch Elm Disease and <i>Armillaria</i> . Protect bark when young. May be attractive to flickers (damaging birds).
<i>Zelkova serrata</i>	Japanese zelkova	Green Vase, Halka, City Sprite, Wireless	8	M	60	45	V	Y	M	N	M	N	N	Y	Y	Related to elms, but resistant to Dutch Elm Disease. Grows moderately to 60'. Lovely as a street tree when space allows. City Sprite and Wireless for under powerlines. Can be pruned up and over signage. Needs consistent water to establish, but otherwise great for southern OR.
<i>Gleditsia tricanthos</i>	Thornless honeylocust	Halka, Imperial, Shademaster, Skyline, Sunburst, Trueshade	9	N	40	40	O	Y	Y	N	Y	N	N	Y	N	Vigorous growth, with interesting bark and bright foliage. Yellow new growth in spring. Strong branching, but requires pruning for deadwood and ROW clearance.
<i>Quercus bicolor</i>	Swamp white oak		9	N	80	80	R	Y	Y	N	L	N	N	N	N	May produce 1" acorns sporadically when mature. Scalloped leaves dark green above, silvery white beneath. Needs good drainage. CAUTION: susceptible to <i>Armillaria</i> , mistletoe.
<i>Quercus coccinea</i>	Scarlet oak		9	N	75	50	O	N	Y	N	L	N	N	Y	N	Deeply cut leaves turn bright scarlet in fall. Availability is limited. Needs good drainage. CAUTION: susceptible to mistletoe, <i>Armillaria</i> .
<i>Quercus garryana</i>	Oregon white oak		9	N	70	60	R	N	Y	Y	M	Y	N	N	N	aka Garry oak. Native to PNW. CAUTION: susceptible to mistletoe, <i>Armillaria</i> . Needs good drainage.
<i>Quercus kelloggii</i>	California black oak		9	N	80	80	R	N	Y	Y	L	Y	N	N	N	Difficult to transplant successfully. Eugene is northern end of natural range. New leaves are pinkish. Needs good drainage. CAUTION: susceptible to mistletoe (less than OR white oak), <i>Armillaria</i> .
<i>Quercus lobata</i>	California valley oak		9	N	70	70	O	Y	Y	N	L	N	N	N	N	aka CA white oak. Fast growing, eventually a giant shade tree; good alternative to cottonwood. Needs good drainage.
<i>Quercus macrocarpa</i>	Bur oak		9	N	90	90	R	Y	Y	N	L	N	N	N	N	Difficult to transplant successfully, but once established tolerant of many stressful conditions. CAUTION: susceptible to mistletoe, <i>Armillaria</i> .
<i>Quercus phellos</i>	Willow oak		9	N	75	60	O	Y	Y	N	M	N	N	Y	N	Narrow leaves- does not look like a "typical" oak, but eventually will produce acorns. Handsome, fast growing, unusual tree. CAUTION: susceptible to mistletoe, <i>Armillaria</i> .
<i>Quercus shumardii</i>	Shumard oak		9	N	50	40	O	Y	Y	N	N	N	N	Y	N	Thrives in moist, acid bottomland soils where poor drainage creates problems for other trees.
<i>Quercus suber</i>	Cork oak		9	N	70	70	R	N	Y	N	L	N	N	N	N	Under-utilized evergreen oak. Fast grower in southern OR. Good for "desert"
<i>Quercus robur</i>	English oak		9	N	70	60	R	N	Y	N	L	N	N	N	N	Large rounded tree with sturdy structure. Adaptable to different soil and climate conditions. Hybrids available for different shapes and growing spaces.
<i>Acer platanoides</i>	Crimson King Norway maple	Crimson King	10	N	45	40	O	Y	Y	N	M	N	N	Y	Y	Heat and drought tolerant, adapted to poor soil, maroon leaf color, may self-seed, can be surface rooting and attract aphids
<i>Acer platanoides</i>	Norway maple	Columnare, Columnarbrood (Parkway), Deborah, Emerald Queen	10	N	50	40	O	Y	Y	N	M	N	N	Y	Y	Heat and drought tolerant, adapted to poor soil, yellow fall color, may self-seed, can be surface rooting and attract aphids, tolerant of <i>Verticillium</i>
